

Important information concerning the availability of iBGStar® Diabetes Manager Application v. 2.2.1 for iPhone 5c/5s

Sanofi is pleased to announce the release of the updated iBGStar® DMA v. 2.2.1 which is compatible with supported iDevices up to the fifth generation including the iPhone 5c/5s and Apple's new operating system iOS7.

iBGStar® DMA v. 2.2.1 is available for download on the Australian App Stores from 12th of December 2013. Users are advised to back up their data on iTunes before performing the upgrade.

The iBGStar® DMA version 2.2.1 can be used with iPhone 3GS/4/4S/5/5c/5s and iPod touch 3/4/5. For users of older generation iDevices, a full overview of iBGStar® DMA compatibility can be found on <http://www.bgstar.com/web/ibgstar/app>.

If it is not possible to download or upgrade to DMA 2.2.1 with an iDevice, the App Store will automatically offer to download an earlier version of the App that is compatible with the user's respective iOS operating system.

For more information, please contact the STARcare customer support 1800 247 827

For quick reference: What's new in DMA 2.2.1?

The iBGStar® DMA 2.2.1 is now also compatible with the new iPhone 5c/5s.
